Preferred AUM: \$50MM and above

Profile:

ABC Family Office Sample is a multi family office located in the heart of New York City. They have a strong affinity towards managers who have \$50MM or more in AUM, however they will consider smaller managers on a case by case basis. ABC currently allocates \$500MM to hedge funds at the present time, with that number expecting to increase by Q4 of 2009. ABC has a current focus on the Long Short Equity space, as well as ABL. ABC tends to have a due diligence process of 5-10 months, with an average allocation being in the 3-6 million dollar range. They seek returns of 8-14% on an annual basis, and will not invest in funds with lock up periods.
